PROFILE

Cloud and Automation Engineer with experience in AWS and Azure Cloud Engineering, AI/ML integration, and IT Support. Skilled in deploying cloud infrastructure, building Agentic AI workflows with n8n, developing dynamic web solutions, and automating operations using Azure CLI, Python, and JavaScript.

EXPERIENCE

Real Time Data Services | Cloud and Automation Engineer (Gurugram, India | Jan 2025 – Present)

- Designed and managed hybrid cloud infrastructure across AWS and Azure.
- Developed Agentic AI workflows using n8n with LLM integrations.
- Built responsive websites using JavaScript, HTML, CSS.
- Implemented AI/ML solutions for real-time data analysis.
- Built APIs and microservices using Python and JavaScript.

Mismo Systems | Associate Cloud Consultant (New Delhi, India | Feb 2024 – Dec 2024)

- Managed Azure VMs, VNets, Storage Accounts, NSGs.
- Automated deployments using Azure CLI and ARM Templates.
- Configured Azure Backup and ASR for DR.
- Monitoring using Azure Monitor and Log Analytics.
- IAM with RBAC and Azure AD.

Q3 Technologies | Support Engineer (Gurugram, India | Jun 2023 – Dec 2023)

- Linux and Windows Server administration.
- Active Directory user and policy management.
- Bash scripting for automation.
- VMware vSphere and Hyper-V support.
